

TABLE OF CONTENTS

Preface	3
Table of Contents	5
Index of Authors	7

NATURAL LANGUAGE PROCESSING

LexisTerm – The Program for Term Selection by the Criterion of Specificity	
Roque Lopez, Mikhail Alexandrov, Dennis Barreda, Javier Tejada	8
Methods and Tools of Computational Linguistics for the Classification of Natural Non-Referential Ellipsis in Spanish (Review)	
Vera Danilova	16

AUTOMATED TRANSFORMATION OF ALGORITHMS

The Extended Algebra of Algorithms with Additional Cycle Elimination Axioms	
Volodymyr Ovsyak, Aleksandr Ovsyak	23
A Concept of a Model of a Computer System for Forming Complex Uniterms	
Magdalena Niziolek, Volodymyr Ovsyak	35
The Computer Process of Optimization Algorithms Formulas	
Tomasz Markuszewski	39

AGENT AND MULTI-AGENT SYSTEMS

Intelligent Controller for Hybrid Renewable Energy System Based on Multi-Agent and Embedded Technology	
Anton Tyukov, Alexey Uzhva, Maxim Shcherbakov, Adrian Dobrowolski, Adriaan Brebels	46
Imitational Modeling of Behavior of Learning Economic Agents	
Sergey Maruev, Dmitry Stefanovskiy	53

IMAGE PROCESSING

Development of a Combined System for Input of Three-Dimensional Images	
Alexei Mordvinov	57
Methods of Image Recognition as a Tool in Analysis of Internal Composites Structures	
Arkadiusz Rzucidlo	64

BUSINESS APPLICATIONS

Clustering in the Space of Independent Components as a Tool for Revealing Contagion Effect on Finance Markets	
Konstantin Dylko, Mikhail Alexandrov	72
BPMN and BPR: a new shape of business processes	
Łukasz Paśko	79

E-LEARNING SYSTEM

The E-Learning System with Embedded Neural Network	
Anna Plichta	90

Genetic Algorithms in E-Learning Systems

Sargsyan S. G., Hovakimyan A.S., Barkhudaryan S.V.....96

The Techniques for Development of E-Learning Courses on Computer Networks

Iwetta Turek, Michał Szczurowski, Grzegorz Rzeźnikiewicz, Arkadiusz Rzucidło103

MODELS OF PETRI NETS**Modeling and Solving Technological Tasks by Language of Petri Nets**

Nataliya Golian, Vera Golian, Olga Kalynychenko.....113
