Index of Authors	4
Table of Contents	5

BUSINESS INTELLIGENCE SYSTEMS

Analysis of the Throughput of the Process of Distance Learning	
Sergey Maruev, Evgeniya Gorbunova	7
Constructing Decision Tree Based on Questionnaires to Detect a Possible Corruption in Logistics	
Dmitry Stefanovskiy, Sergey Maruev, Xavier Tejada	12
Program World-Dyn Based on Forrester Model of World Dynamics	
Olga Proncheva	16
Estimation of the Investment Attractiveness of Companies Using Multiples that Account for Industry Specific Factors	
Evgeniy Ageev	21
Smoothing and Prognosis of Multi-Factor Time Series of Economical Data by Means of Local Procedures (Regression and Curvature Evaluation)	
Alexander Kovaldji, Vladimir Averkiev, Marina Sarkissyan	27
Time Series Prognosis of GDP with the System GMDH-Shell (Experimental Work)	
Victor Lebedev	32
Study of investment attractiveness of Russian companies on the basis of their market characteristics and performance reporting	
Dmitriy Bogachev	37

DECISION MAKING SUPPORT AND EXPERT SYSTEMS

Study Relationship Between Utility Function and Membership Function in the Problem of Object Ranking	
Stanislav V. Mikoni, Marina I. Garina	41
The Model of Decision Support System for a Manufacturing Company	
Monika Piróg-Mazur	46
A Multi-Level Fuzzy Logic Scheme for Modeling Complex Problems	
July Diana Banda-Tapia, Regina Ticona Herrera, Dennis Barrios-Aranibar, Joe Tekli, Richard Chbeir	54
Multicriteria Selection of Perspective Objects for Investments: Dss Svir vs. Muchnik Method	
Pavel Mogilyov, Mikhail Alexandrov, Stanislav Mikoni	61

NATURAL LANGUAGE PROCESSING AND SOCIAL NETWORK ANALYSIS

Studying Special Text Russian Corpora by the Lexico-Syntactic Models	
Maria Khokhlova, Victor Zakharov	69
Automated Tag Extraction & Clustering in Documents Containing Compositional Phrasemes	
Vera Danilova, Xavier Blanco, Dmitry Stefanovskiy	74

The Study of Factors Related with Single-Document Keyword Extraction	
Popova Svetlana.....	78
Spanish Sentistrength as a Tool for Opinion Mining Peruvian Facebook and Twitter	
Roque López, Javier Tejada, MikeThelwall	82
Parameterization of Comments from Peruvian Facebook and Twitter: Lexical Resources and Algorithm	
Angels Catena, Mikhail Alexandrov, Roque López.....	86
Intelligent Tutoring System for Belarusian as a Foreign Language	
Olga Yelisseyeva, Yuri Kim	93
The Educational Technology for Learning Foreign Words	
Andrey Dukhovny	102
 <u>SOFTWARE ENGINEERING INFORMATION SYSTEMS</u>	
Information systems of administrative justice – as social tool for implementation of publicity principle	
Tatjana Bilevičienė, Eglė Bilevičiūtė	108
Using Real-Time System to Manage Production Data in a Distributed System	
Magdalena Dobrzańska, Paweł Dobrzański, Artur Łopuszyński, Łukasz Kurowski	120
Preprocessing "RAW" Data Sets as an Important Aspect of Intelligent Information Processing	
Sergii Konovalenko.....	133
System Modification Model Creating Synthesis for Algorithm Formulas	
Magdalena Niziołek, Volodymyr Ovsyak.....	140
 <u>Computer Aided Engineering and Simulation</u>	
Research of Accuracy of Guaranteed Operayting Time Prediction by Fractile Zones Method	
Leonid Nedostup, Myroslav Kiselychnyk, Pavlo Zayarnyuk.....	148
Energy-Efficient Protocol in Omnet++ Simulation Environment	
Krzysztof Daniluk.....	159
Methods of Reconstruction of Surface Profiles Measured by Stylus Method	
Sławomir Górka, Paweł Pawlus.....	164
Computer Program for Simulation of Pressure Distribution in the Hydrodynamic Radial Bearing	
Wiesław Graboń, Jan Smykla.....	176
