## TABLE OF CONTENT

Non Smooth Optimization Methods in the Problems of Constructing a Linear Classifier Yurii I. Zhuravlev, Yuriy Laptin, Alexander Vinogradov, Nikolay Zhurbenko, Aleksey Likhovid.....	103
On Some Properties of Regression Models Based on Correlation Maximization of Convex Combinations Oleg Senko, Alexander Dokukin .....	112
Correlation-Based Password Generation from Fingerprints Gurgen Khachatryan, Hovik Khasikyan.....	123
Segmentation Based Fingerprint Pore Extraction Method David Asatryan, Grigor Sazhumyan .....	134
On a Modification of the Frequency Selective Extrapolation Method Gevorg Karapetyan and Hakob Sarukhanyan.....	139
Activity Recognition Using K-Nearest Neighbor Algorithm On Smartphone With Tri-axial Accelerometer Sahak Kaghyan, Hakob Sarukhanyan .....	146
Pareto-optimum Approach to Mathematical Modeling of Odours Identification System Andriy Zavorotnyy, Veda Kasyanyuk .....	157
About Possibility-theoretical Method of Piecewise-linear Approximation of Functional Dependencies in Problem of Odours' recognition Veda Kasyanyuk, Iryna Volchyna .....	162
Software for the Recognition of Polyhedron Contour Images in the Framework of Logic-Objective Recognition System Natalya Bondar, Tatiana Kosovskaya .....	170
Product Quality Analysis Using Support Vector Machines A. Nachev, B. Stoyanov .....	179
Weights of Tests Vesela Angelova .....	193
