TABLE OF CONTENTS OF IJ IMA VOL.7, NUMBER 1

Values-Oriented Leadership in Difficult Times

Christiane von der Heiden 3

Digital Economy and Psychology

Anatoly Zankovsky, Leo Surat 12

Overview and Analysis of the Main Leadership Concepts, Defining the Modern Management of the Business Organizations

Veselin Milanov..... 20

Innovation, Digitalization and Integration in the Balkan Region

Rossitsa Chobanova..... 27

Smart Management of the Business Organizations – Transition from a Process-Oriented Towards an Analytical Toolset

Iliyan Bakalov..... 59

Protection of Information in Small and Medium Size Enterprises

Hristo Ivanov..... 65

Opportunities and Indicators for Strategic Development of Leadership in Mobile Operators

Ivaylo Stoyanov 71

Statistical Models for Predicting of Teletraphic Parameters of Markov Chains

Stanimir Sadinov, Ivelina Balabanova, Georgi Georgiev 77

Isoperimetric Problems in Discrete Spaces

Levon Aslanyan 89

Distributed Leadership

Anastassia Dyulgerova 95

Table of Contents 100

TABLE OF CONTENTS OF IJ IMA VOL.7, NUMBER 2

Optimization of Gene Expression with a Genetic Algorithm

Angel Castellanos, Rafael Lahoz–Beltra 103

A Study on Pattern Discovery of Smart Meter Data for Energy Efficiency

Sarah Osama, Marco Alfonse, Abdel-Badeeh M. Salem 114

Obtaining Initial Information for Behavioral Software Models' Processing

Olena Chebanyuk, Oleksii Dyshlevy, Valentyna Skalova 125

Methods of Improving the Process Approach in Assessing the Efficiency of University Quality Management Systems

Plamen Pavlov 142

The Inverse Ranking Problem and the Algorithm for Solving It

Viacheslav Gorborukov, Oleg Franchuk 152

Using Genetic Algorithm for Singularity Avoidance in Positioning Tasks of a Robotic Arm

Michael Nasr, Mohammed Marey, Magdy M. Abdelhameed, and Farid A. Tolbah 163

The Knowledge Acquisition System Trainer1 and Finsim1 (Simulator for Teaching Financial Analysis) As Inevitable Component of Distance Learning

Tea Munjishvili 177

Table of Contents 200

TABLE OF CONTENTS OF IJ IMA VOL.7, NUMBER 3

Creation of a Corpus for Studying Properties of Child Speech Related to Iconicity, Frequency, Length, Orthographic Neighborhood, and Concreteness – a Technical Report with some Descriptive Statistics

Velina Slavova

1. Introduction - The Aim of the Corpus Creation 203

2. Data sources 204

3. Data-Reorganization of the Child Speech Corpus 207
4. Adjusting of the Word-Strings from the Child Speech Corpus..... 209
5. Data Fusion for Annotation of the Child Speech with Iconicity 224
6. The POS-problem: Some Descriptive Statistics of the Data sources 227
7. POS Transition, Mapping and Filtering 231
8. The obtained corpus 239
9. Closing Remarks..... 248
Acknowledgment 249
References 249
Authors' Information 250
Appendix A. Data from CHILDES – list of the used corpora 251
Appendix B. Example - Dialogue retrieved from CHILDES, tagged in the Child Speech Corpus 252
Appendix C. Word adjusting of the Child speech corpus to match the Iconicity Table. 258
Appendix D. Occurrences of Normal Forms of Verbs which Match verbs in the Iconicity Table..... 276
Appendix E. Occurrences of 3S conjugations left to Match verbs in the Iconicity Table 281
Appendix F. Protective changes of present participles 284
Appendix G. Protective Changes of Past Tense Forms..... 288
Appendix I. Past tense forms of Regular verbs left to match the normal form in the Iconicity Table 289
Appendix J. Past tense forms of Irregular verbs protected from matching the Iconicity Table..... 291
Appendix K. Irregular verbs mistaken by children - with examples of use. 292
Appendix L. Protective Changes of Past Participles 293
Appendix M. POS Transition Markers..... 294
Appendix N. The 100 most frequently used words in the children's speech with their Iconicity..... 298
Table of Contents 300

TABLE OF CONTENTS OF IJ IMA VOL.7, NUMBER 4

Using of "International Components for Unicode" for Applied Tasks of Computational Linguistics (Case of Structural Text Analysis)

Yuriy Koval, Maxim Nadutenko 303

Research of the Intellectual System of Knowledge Search in Databases

Oleksii Vasilenko, Oleksandr Kuzomin, Bohdan Maliar 327

Research of Medical Diagnostic Data Search Methods

Oleksii Vasilenko, Oleksandr Kuzomin, Oleksandr Shapoval 339

Intellectual Models and Means of the Biometric System Dynamics of Rinosinusite

Oleksii Vasilenko, Oleksandr Kuzomin, Tatyana Khripushina 350

Forming Medical Database and Knowledge for Diagnostic Disease

Oleksii Vasilenko, Oleksandr Kuzomin, Vladislav Shvets 362

Automated Tests for Errors in Computer System 'Environment'

Oleksii Vasylenko, Oleksandr Kuzomin 373

Developing methods based on Text Mining technology to improve the quality and speed of automatic clustering of documents

Oleksii Vasilenko, Oleksandr Kuzomin, Artem Mertsalov 385
