

TABLE OF CONTENTS OF VOLUME 13, NUMBER 1

Preface	3
Using Sensitivity as a Method for Ranking the Test Cases Classified by Binary Decision Trees.....	5
<i>Sabrina Noblesse, Koen Vanhoof</i>	
The Staple Commodities of the Knowledge Market.....	11
<i>Krassimir Markov, Krassimira Ivanova, Ilia Mitov</i>	
Basic Interactions between Members of the Knowledge Market	19
<i>Krassimira Ivanova, Natalia Ivanova, Andrey Danilov, Ilia Mitov, Krassimir Markov</i>	
About Problems of Decision Making in Social and Economic Systems.....	31
<i>Oleksiy Voloshyn</i>	
Optimum Trajectory of Dynamic Input-Output Balance Model for Open Economy.....	38
<i>Igor Lyashenko, Olena Lyashenko</i>	
Fuzzy Set Theory Approach as the Basis of Analysis of Financial Flows in the Economical Security System	45
<i>Alexander Kuzemin, Vyacheslav Lyashenko</i>	
Dynamical Systems in Description of Nonlinear Recursive Regression Transformers.....	51
<i>Mykola Kirichenko, Volodymyr Donchenko, Denys Serbaev</i>	
Data Flow Analysis and the Linear Programming Model.....	60
<i>Levon Aslanyan</i>	
Matricial Model for the Study of Lower Bounds	65
<i>Jose Joaquin Erviti, Adriana Toni</i>	
HI!MVC: Hierarchical MVC Framework for WEB Applications	75
<i>Micael Gallego-Carrillo, Iván García-Alcaide, Soto Montalvo-Herranz</i>	
A Sensitive Metric of Class Cohesion.....	82
<i>Luis Fernández, Rosalía Peña</i>	
Handling the Subclassing Anomaly with Object Teams	91
<i>Jeff Furlong, Atanas Radenski</i>	
In memoriam – Andrey Danilov	99
