

## TABLE OF CONTENTS OF IJ ITA VOL. 27, NO.1

*Using Visual Analytics and K-Means Clustering for Monetising Logistics Data, a Case Study With Multiple E-Commerce Companies*

Hamzah Qabbaah, George Sammour, Koen Vanhoof ..... 3

*On Logical-Combinatorial Supervised Reinforcement Learning*

Levon Aslanyan, Vladimir Ryazanov, Hasmik Sahakyan ..... 40

*Optimization Problem: Systemic Approach*

Albert Voronin, Yuriy Ziatdinov ..... 52

*Multisensor Prototype for Beverage Quality Control: Principle Scheme and Test Results*

Volodymyr Romanov, Igor Galelyuka, Oleksandr Voronenko, Oleksandra Kovyrova,  
Sergei Dzyadevych, Lyudmyla Shkotova ..... 82

*A Comparative Examination of Convolutional Autoencoder and Densenet Applications for Breast Cancer Classification*

Naderan Maryam, Yuri Zaychenko ..... 93

*Table of contents*..... 100

## TABLE OF CONTENTS OF IJ ITA VOL. 27, NO.2

### *Integration of Chain-Computation Algorithms in Cube-Splitting Technique*

Hasmik Sahakyan, Levon Aslanyan ..... 103

### *Mathematical Logic Problems in Natural Language Processing*

Serhii Kryvyi, Nataliia Darchuk, Hryhorii Hoherchak ..... 121

### *Synthesis of Chat-Bot Responses in the Inflecting Natural Language Based on the Results of Queries to Ontology and Analysis of the Chat Previous Phrase*

Anna Litvin, Vitalii Velychko, Vladislav Kaverinsky ..... 152

Table of contents ..... 200

## TABLE OF CONTENTS OF IJ ITA VOL. 27, NO.3

|                                                                                                                                  |     |
|----------------------------------------------------------------------------------------------------------------------------------|-----|
| <i>Using Apriori Association Rules and Decision Tree Analysis for Detecting Customs Fraud</i>                                    |     |
| Hamzah Qabbaah, George Sammour, Koen Vanhoof .....                                                                               | 203 |
| <i>Substantive Formulation of UAV Groups Routes Optimization Problem</i>                                                         |     |
| Maksym Ogurtsov, Vyacheslav Korolyov .....                                                                                       | 229 |
| <i>Isomorphism of Predicate Formulas as the Base of Logic Ontology Construction</i>                                              |     |
| Tatiana Kosovskaya.....                                                                                                          | 248 |
| <i>Digital Analysis of Genetic Proximity of the Balkan Population</i>                                                            |     |
| Georgi Gachev, Jordan Tabov.....                                                                                                 | 256 |
| <i>Didactical Mapping in Topic-Oriented Didactical Units</i>                                                                     |     |
| Borislav Yordanov Lazarov .....                                                                                                  | 273 |
| <i>Analysis of Approaches for Effective Applications Development in Monolith, Service-Oriented and Microservice Architecture</i> |     |
| Yurii Milovidov .....                                                                                                            | 288 |
| Table of contents.....                                                                                                           | 300 |

## TABLE OF CONTENTS OF IJ ITA VOL. 27, NO.4

### *Steganalysis of Adaptive Embedding Methods by Message Re-Embedding Into Stego Images*

Dmytro Progonov, Vladymir Lucenko ..... 303

### *Диагностика медицинских изображений опухолей молочной железы с использованием гибридных сверточных нечетких нейронных сетей*

Галиб Гамидов, Юрий. П. Зайченко..... 325

### *Исследование нечетких нейронных сетей с различными алгоритмами вывода в задачах прогнозирования на рынках ценных бумаг*

Тофик Кязимов, Юрий Зайченко ..... 345

### *Универсальные решающие правила: поддержка и принятие решений в задачах распознавания, диагностики, выбора, классификации*

Крисиллов А.Д., Крисиллов В.А., Чумаченко В.В. .... 369

### *Графо-аналитический метод оценки состояния диагностируемого объекта*

Игорь Арефиев, Теа Мунджишвили ..... 383
